Certification, standards and market trust · 6. Media, brand and visibility · 7. Education and knowledge transfer · 8. Public procurement and government relations

Attending in person

Recordings take place from 9:00 to 10:30. This material is produced only for those present on site.

Video profile — 60 to 90 seconds. Every chamber and every delegation records a short introduction: who we are, what we bring, what we are looking for. We recommend two takes — one in your own language and one in English. The finished material is given to you for publication in your own channels, and also goes to Polish Women Chamber TV and the English edition of Business Women IMPACT magazine.

Interview — 12 minutes. A conversation about market realities, barriers, and what your members expect from international cooperation. The material goes to Polish Women Chamber TV and to the magazine. **Interviews are recorded at a single station, so the number of slots is limited** — places are allocated in order of request.

Why it is worth travelling in person:

- Professionally produced material about your own organisation, in two languages, takes three minutes and carries no cost.
- The video profiles are edited into one collective film of the whole congress.
- The group photograph under the Global Women Chamber of Commerce banner is taken once.
- Online participation gives you a voice. Being present gives you a voice, video material, bilateral conversations during the break, and your organisation's name on the Board of Commitments.

Recording slots are managed by the Secretariat. Please arrive 15 minutes before your slot.
